

Be Swept off Your Feet In A Historic Venue

SAINT ALBANS
DOWNTOWN

Hold your special event at the historic City Hall in the heart of downtown St. Albans, a charming Vermont community steeped in history. This 5,000-square foot performance venue was recently renovated from stem to stern. A stage anchors the room; soaring ceilings create a celebratory atmosphere; and 16 large windows stream natural light to bounce off the honey-toned woodwork. Accessible by two elevators, the air-conditioned performance hall blends the authenticity of yesterday with the practicality of today. In addition to the performance venue, the building also features a reception room, meeting room, and an accessible entrance. With the rich character offered by a renovated historic building, the hall is well suited for the performing arts, weddings, and community events.

**Performing Arts • Concerts
Weddings • Anniversaries
Music • Corporate Retreats

ALL WITHIN STROLLING DISTANCE

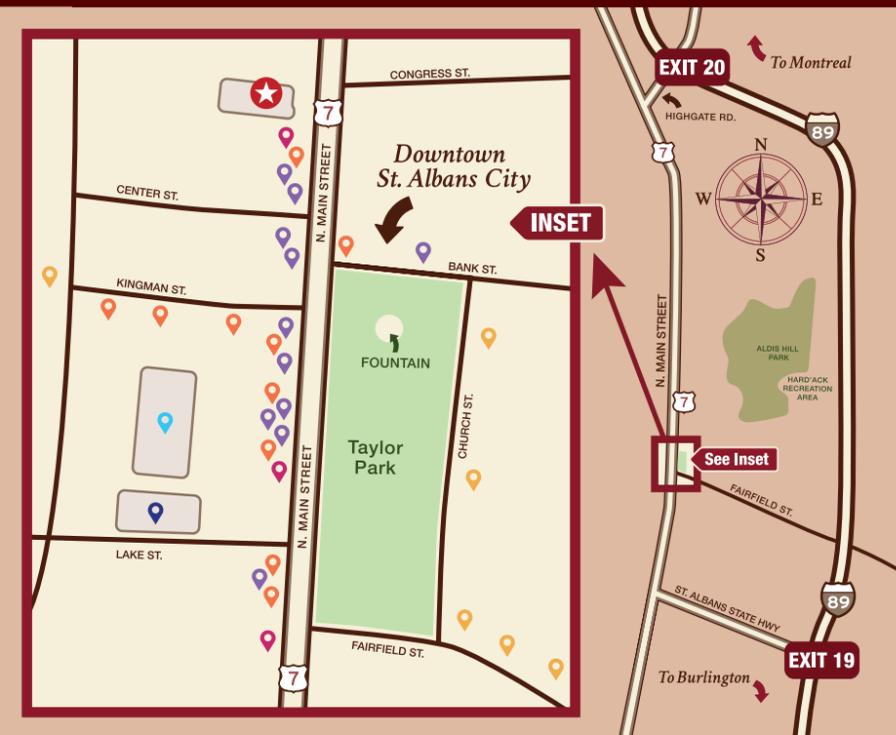

Downtown St. Albans provides all the infrastructure you need for large events at this community-oriented venue. A brand-new Hampton Inn, five floors of public parking, half a dozen churches, scores of gourmet restaurants, and a five-acre town green help set City Hall apart from other venues.

For weddings, the historic park and fountain provide the perfect backdrop for photos. For concerts, the many restaurants and cafes help turn a night out into a night to remember. And for the performing arts, the large, flexible space with professionally engineered acoustics within City Hall offers a truly unique space in Northwestern Vermont.

To right: The picturesque fountain in Taylor Park was created circa 1891 and recently restored to its original majesty. It only takes a few minutes to walk there from City Hall.
