Review of the submitted information for the above-identified property under the City of Saint Albans Land Development Regulations, which went into effect on March 6, 2000 (including all amendments), finds the following issues:

- The lot does not meet minimum size requirements.
- The lot does not meet the minimum width requirements.
- The Garage does not meet the side setback on the South
- The Driveway does not meet the side setback on the West

However, the subject property may continue to be used in its existing capacity, or for new uses if a permit is granted, and any structures on the property can be repaired, maintained, altered or extended, including the addition of accessory structures, if it does not result in non-conforming uses, non-conforming structures, or increases in lot coverage percentage beyond the maximum allowed, and as long as any extension or addition is in conformance with all provisions of these regulations, as indicated by an approved permit

This Certificate does not certify to the legal size of the lot, and does not preclude the City of St. Albans from pursuing an enforcement action or taking other appropriate action to ensure compliance with the Land Development Regulations, if a violation were to present itself.

Based upon the information submitted by the property owner, I hereby issue this Certificate of Compliance.

Dated this 07/23/2020 at the City of St. Albans, Vermont.
